

ICEES-2022

A WARM INVITATION TO BANGLADESH

It is a great pleasure for the Organizing Committee to invite you to join and participate in the BILATERAL INTERNATIONAL CONFERENCE ON ECOTOXICOLOGY & ENVIRONMENTAL SCIENCES to be held in Khulna, Bangladesh on 19 - 20th of October, 2022.

The Organizing Committee of the conference has chalked out an outstanding program involving internationally acclaimed experts who will not only participate in plenary lectures but will also interact personally with interested participants.

The objective of the conference is

- To strengthen the scientists across all sectors viz. Industry, Government and Academia with improved knowledge to meet societal demands for managing environmental toxicants vis-à-vis their threats in a progressive society concomitant with sustainable development.

- To increase the bilateral cooperation in the field of Research and Education and Academia with improved knowledge to develop social awareness amongst common people, youth and students on environmental activities through the establishment of a framework of cooperation

- To promote new innovative research works among the science students and field workers.

- To get acquainted with new applications in respect of tools and techniques in the field of environmental sciences.

- To get information regarding new innovative discoveries of the scientist/researchers in the field of environmental sciences, like, environmental engineering, agro-engineering, fisheries, animal husbandries, agro-pathology, etc.

- To get introduced with the field workers who are involved in different environment related programs throughout the world to know their basic indigenous techniques and the challenges faced by them.

- To point out the major demands to combat against the problems faced in agriculture sectors especially in Indian sub-continent, thus, to provide further scope of advance researches for the scientific community.

- To motivate the researchers in applied sectors rather than fundamental researches.

- To provide ample opportunities to the students to get introduced with the tools and techniques through hands on training/workshops.

A special session will be dedicated for poster presentation and workshop/demonstration and the best three posters and demonstrator will also be awarded after the selection by a panel of specially constituted international judges.
